

J TEK Instruments | Steinfurth Representative | UK | Ireland

J-Tek Instruments was setup in 2005 to become the Steinfurth representative for the UK and Ireland. This entails the sales of new equipment, support and service.

Other activities include third party service and calibration of torque measuring equipment for the pharmaceutical, food, and drinks industries. Steinfurth is Europe's leader in customer-specific measuring systems for the quality inspection of beverages and beverage packaging.
